EKPC supports Trump Ratepayer Protection Pledge for serving energy needs of data centers

East Kentucky Power Cooperative (EKPC) has signed President Trump's Ratepayer Protection Pledge, promising to protect reliable, affordable electricity for America's families while meeting the energy needs of data centers.

"The pledge is consistent with EKPC's principles for serving data center loads," said EKPC President & CEO Don Mosier. "EKPC has established a tariff that ensures data centers—not other cooperative members—will pay for the power and infrastructure to serve them. We believe data centers are the basic infrastructure of the 21st Century, and Kentucky communities can gain opportunities for jobs, investment and tax base when they are developed."

For more information about EKPC's efforts to protect cooperative members, meet the energy needs of data centers, and accommodate opportunities for communities to access jobs and investment of data centers, please visit <https://www.ekpc.coop/data-centers>

— END —

East Kentucky Power Cooperative is a not-for-profit, member-owned cooperative providing wholesale electricity to 16 owner-member distribution cooperatives that serve 1.1 million Kentucky residents at 579,000 homes, farms, businesses and industries across 89 counties. EKPC provides power through coal-fueled plants located in Mason and Pulaski counties; natural gas-fueled plants in Clark and Oldham counties; renewable energy plants in Barren, Boone, Clark, Greenup, Hardin and Pendleton counties; and nearly 3,000 miles of transmission lines. Together, EKPC and its 16 owner-member cooperatives are known as Kentucky's Touchstone Energy Cooperatives. Visit EKPC at www.ekpc.coop.
