Lovell promoted to Vice President of Power Production

Troy Lovell has been promoted to Vice President of Power Production.

In that role, he will oversee EKPC's electric-generating facilities, including coal, natural gas and renewable power plants. He will transition into the role currently held by Craig Johnson, who has announced plans to retire in 2026.

"I am truly blessed and humbled to accept the role of Vice President of Power Production," Lovell said. "I'm deeply thankful for this incredible opportunity and for the trust placed in me. It is an honor to serve alongside such talented and dedicated people who share a common commitment to keeping the lights on for the communities we serve. I look forward to continuing EKPC's proud tradition of excellence, reliability, and teamwork."

Troy Lovell

Lovell has served in a number of roles at EKPC, most recently as Director of Regional Production.

He has a bachelor's degree in Business and Management from Union College.

East Kentucky Power Cooperative is a not-for-profit, member-owned cooperative providing wholesale electricity to 16 owner-member distribution cooperatives that serve 1.1 million Kentucky residents at 579,000 homes, farms, businesses and industries across 89 counties. EKPC provides power through coal-fueled plants located in Mason and Pulaski counties; natural gas-fueled plants in Clark and Oldham counties; renewable energy plants in Barren, Boone, Clark, Greenup, Hardin and Pendleton counties; and nearly 3,000 miles of transmission lines. Together, EKPC and its 16 owner-member cooperatives are known as Kentucky's Touchstone Energy Cooperatives. Visit EKPC at www.ekpc.coop.
