

## Stay informed about right-of-way on your property

Help us keep you up-to-date. Please fill out the following and mail it back to EKPC.

Property Owner Name

Phone #

### Affected Property

Mailing Address

Street (if different from mailing address)

City

Zipcode

County

EKPC Structure #

Designated Contact

phone # (if other than owner)

### Please indicate your request

- Please record my name/phone number or the above designee as the official contact for notice about access on this property
- I want a copy of the easement across my property as identified by the EKPC Structure # above
- I have a question about the EKPC transmission line or easement and would like for EKPC to contact me
- I want to talk with someone about plans I have that are on my property and near the EKPC transmission line easement

### Contacting EKPC about right-of-way

Do you have questions or concerns about EKPC's electric transmission lines or its right-of-way on your property? Are you planning a project near the right-of-way? Please contact us. Be sure to include structure number(s).

### Online

[www.ekpc.coop/operations/transmission](http://www.ekpc.coop/operations/transmission)

### Email

[pdrightofway@ekpc.coop](mailto:pdrightofway@ekpc.coop)

### Return the attached form

Detach, complete, and mail the attached form to EKPC.

### By phone

(859) 744-4812

### How do I identify the structure number(s) on my property?

Approximately 15 feet above the ground, each EKPC transmission structure displays numbers and letters to identify the structure and its unique location.

## Your property and electric transmission line rights-of-way

*Protecting safety and reliability*

 **EAST KENTUCKY  
POWER COOPERATIVE**

A Touchstone Energy Cooperative 

## Transmission line easements

Electric transmission lines carry large amounts of electricity over long distances. EKPC maintains nearly 2,900 miles of transmission lines in Kentucky.

### **I did not agree to an easement; where did it come from?**

Most likely, a previous owner of the property agreed to it. Easement rights typically last forever and transfer with land ownership. A title search or land survey should identify any existing electric transmission easements.

### **Getting a copy of the easement for your property**

Easements are recorded with the County Clerk where the property is located. One easement could address multiple properties due to subsequent subdividing. If you have difficulty finding the easement for your property, contact EKPC with the structure number and we will assist.

## East Kentucky Power Cooperative

EKPC is a not-for-profit, member-owned cooperative providing wholesale electricity to 16 owner-member cooperatives that serve 1.1 million Kentucky residents and businesses in 89 counties.

## Electric transmission lines on your property

**Easement** – Legal agreement defining and transferring land rights necessary for EKPC to build, operate and maintain transmission facilities.

**Right-of-way** – The portion of property around transmission lines and facilities for which EKPC has purchased an easement. EKPC does not own this property but has rights to locate its poles and wires there and to enter the property to maintain its facilities.

### **What may be prohibited in the right-of-way?**

- Adding or expanding any portion of structures such as houses, barns, sheds and swimming pools.
- Raising the elevation of the ground surface, even temporarily.
- Digging near support structures like poles, towers, anchoring guys, etc.
- Cutting/logging trees that could fall into or near wires or structures.
- Piling material, even temporarily

If you are planning any of these activities near EKPC's right-of-way, PLEASE CONTACT EKPC FIRST. For contact info, see the back cover.
